## **Chapter 1**

## **Introduction**

### ***Hertalan (UK) Ltd, providers of waterproof solutions***

As part of the Dutch company, Hertel Rubber Products, ***hertalan*** (UK) Ltd enjoys the full support and technology of a parent company established more than 100 years ago. In the current climate of high technological development, Hertel Rubber Products are producers of high quality seals made of rubber, plastic and metal for the Atomic, Automotive, Shipping, Aviation and Construction Industries, setting industry standards within all of these fields.

Throughout Europe and other parts of the world Hertel Rubber Products provide waterproof solutions to meet stringent requirements in every industry. The company's commitment to Research and Development coupled with Quality and Service ensures that our clients and customers are provided with the highest quality products available today.

### ***Hertel Rubber Products: Product Range***

Hertel rubber Products manufacture and sell a variety of very high quality synthetic rubber membranes worldwide. ***hertalan*** EPDM is the best known of these membranes.

In addition to EPDM, Hertel also manufacture synthetic rubber membranes of other materials like neoprene and Nitril. However, ***hertalan*** is the basis for the design and specification for complete roof waterproofing and exterior wall cladding systems marketed by the company.

### ***Production***

The production processes employed by Hertel are almost entirely computer controlled and meet the most stringent international standards. Advanced quality control systems and continuous process monitoring guarantee constantly high quality products to ISO 9001.
